The Tokyo Edition

MOEBE x Stilleben x Yu Nagaba

MOEBE

On Thursday, August 30 we will release our first limited edition of FRAME by MOEBE; the Tokyo Limited Edition. This is a collaboration between the iconic Copenhagen based design store Stilleben and ourselves, and has been designed especially for Stilleben's limited edition print; Tokyo Still Life.

The Tokyo Limited Edition is a glossy red frame designed to match the only colour in the Tokyo Still Life print; A red stamp carrying edition number, year and place of release. Likewise, this limited number of frames have been engraved showing their finite nature and adding an extra quality to the frame.

"Colours are a very emotional and personal thing to us and a great addition to our otherwise more subtle and natural universe. The Tokyo Limited Edition is a first and very important step for us, it is opening a whole new dimension to the Moebe universe", says Martin de Neergaard Christensen, designer and partner at Moebe.

The Tokyo Limited Edition will be available in sizes A4 and A3, and will as a stand alone only be available at the Moebe webshop.

Tokyo Still Life Limited Print

The limited Tokyo Still Life print has been designed by the Japanese artist Yu Nagaba, and is his interpretation of a Stilleben – the European art tradition of depicting inanimate objects. Yu Nagaba is known for his characteristic simple, black lines, which perfectly catch the substance of his motif – nothing more, nothing less.

Together, the Tokyo Limited Edition frame and the Tokyo Still Life print will be launching at Stilleben's new Pop Up Shop in the beautiful warehouse of Actus placed in the center of of Tokyo. Actus is one of Japan's largest retailers of interior accessories and furniture.

Tokyo Limited Edition x Tokyo Still Life as a collective will only be available at the Pop Up Shop in Actus and at Stilleben.

Moebe will offer a limited number of the Red Tokyo Limited Edition frames for sale at shop.moebe.dk from August 30th.
