With our newest part Cabinet, we finally bring the possibility to hide away those things that you don't want on show - we all have them.

The cabinet can be placed at any height within the system, and still allows for shelves to be placed at either side. The cabinet comes flat packed and consists of 2 custom shelves, 2 side panels, a back plate, and doors. With an internal shelf available as an extra piece. As with the rest of the system, the cabinet is built with no extra tools. The sides are held together by dowels and the doors are simply clicked in place.

ABOUT MOEBE

MOEBE is a Scandinavian design studio that creates products, furniture, and interiors. Formed in 2015 by architects Martin de Neergaard Christensen, Nicholas Oldroyd and cabinet maker Anders Thams.

MOEBE designs everything in-house and develops their own products into production. The products are designed with modularity in mind, they are component-based and can be repaired, assembled, and recycled with ease. MOEBE strives to reduce their designs to their most simple form. Developing new details and techniques for bringing different materials and elements together.
